Kwinana Industries Council welcomes latest Westport development

The Kwinana Industries Council, the peak industry association representing business and industry along the Western Trade Coast, welcomes today's announcement by the State Government that Westport has been referred for environmental assessment.

The announcement is a significant milestone in the development of the new port facilities and supporting infrastructure. This is a once in a generation opportunity and we thank the State Government for moving forward with it.

"The Kwinana Industries Council, which has members operating across the Kwinana Industrial Area and the Western Trade Coast, strongly supports the construction of the new outer harbour and associated infrastructure as it will unlock additional economic growth and opportunities for the State's premier major industrial area," said KIC Director David Harrison.

The KIC looks forward to engaging in the environmental assessment process when it opens for public assessment.
