The next generation of local workers graduates from KIC education program

The Kwinana Industries Council (KIC) is delighted to welcome the latest graduates from its iWOMEN Project.

29 students from schools across the Kwinana, Rockingham and Cockburn areas graduated the 2024 KIC iWOMEN Project at an awards ceremony at the Cruising Yacht Club in Rockingham on Monday 20 May 2024.

This takes the total number of graduates from the KIC iWOMEN Project to 423 over the past 12 years.

There was energy, excitement and delight as the students graduated with their family and friends in the room supporting them. Each of the students delivered fantastic presentations about their experiences on the program and what they learnt.

KIC and its members are committed to growing the number of women pursuing careers in local industry.

The KIC iWOMEN Project started in 2012 to encourage more young women to consider careers in industry by showing them the different opportunities available through KIC's member companies.

Through industry tours and meeting people working in the industries, the students gain first-hand knowledge about what roles and opportunities are available in the Kwinana Industrial Area.

It was an absolute pleasure to have the students on our program and we wish them the best in their future studies and careers.

Thank you to our Program Partners Alcoa and Mineral Resources and our Sponsors Tianqi Lithium and Altrad for all their support. We also thank the 21 local high schools that make up the KIC Education Partnership for their ongoing support and involvement.
